Compensation of Executive Officers

State Impact

This bill would set the salary of the attorney general at 95 percent of the governor's beginning in FY 2010. The impact at that time would depend on any salary adjustments to the governor's salary between now and that time. However, as a reference point, if the provision was in effect now, the cost would be approximately \$13,000.

Individual and Business Impact

The attorney general would see an increase in his salary, but not until July 1, 2009.
